

From the Special Collections of the
Great Plains Transportation Museum
Wichita, KS

Below are a couple of pages from an October 1913 issue of a Wichita Street Guide and Handy Book. This donated book was uncovered in the archives of our collection. There are several railroad pages with passenger train schedules and several pages detailing street name changes. The reader can enjoy what is here and look forward to seeing more in the future. The second view is a rotated version of the first view.
